

**Plano, TX, March 14, 2010** - Virtual Surveillance, market leader in digital video surveillance and management systems, today announced that Costco has chosen Virtual Surveillance's systems to provide video surveillance for Costco. Warehouses in Texas will be the first to receive state of the art 32-Channel network digital video recorders with advanced video analytics.

"Security personnel are faced with an overwhelming volume of video and data, making it difficult to pinpoint events of genuine importance" said [John Mitchell](#), VP of sales at Virtual Surveillance. "Our digital surveillance systems offer behavior recognition and forensic analysis to help save time and zero in on relevant and critical data.

Virtual Surveillance is an international provider of state-of-the-art intelligent video surveillance systems. Virtual Surveillance is a market leader in digital video surveillance systems used for surveillance and protection of multi-site operations. As a direct importer of digital surveillance and security products, Virtual Surveillance provides extremely competitive pricing while maintaining rigorous product quality and reliability standards.
