

**Allen, TX, March 18, 2009** – Virtual Surveillance, market leader in digital video surveillance and management systems, today announced that Garland Christian Academy in Garland Texas has chosen Virtual Surveillance’s Video Management System. The Surveillance system will be installed throughout various buildings in the campus to improve security, reduce safety risks and liability. Virtual Surveillance’s advanced video analytics brings new levels of intelligence to help deter and manage violence, rather than scanning banks of video monitors trying to detect them.

Virtual Surveillance is an international provider of state-of-the-art intelligent video surveillance systems. Virtual Surveillance is a market leader in digital video surveillance systems used for surveillance and protection of multi-site operations. As a direct importer of digital surveillance and security products, Virtual Surveillance provides extremely competitive pricing while maintaining rigorous product quality and reliability standards.
