

**Dallas, TX, September 6, 2005** -Virtual Surveillance, market leader in digital video surveillance and management systems, today announced in cooperation with the Dallas Police Department as part of Katrina relief efforts, it is providing real-time remote video surveillance in both the Reunion Arena and Dallas Convention Center.

The Surveillance systems will help provide safety and security for evacuees housed in those facilities. Via T1 lines, video is transmitted that the Dallas Police Department officers and personnel can view live from their Emergency Operation Center (EOC).

“I was impressed with the speed at which Virtual Surveillance set up the surveillance systems in the Reunion Arena and Dallas Convention Center. Within 36 hours, we had live streaming video from both locations in our EOC,” said Barbara Smith, Deputy Chief of the Dallas Police Department. “Virtual Surveillance incorporates advanced Information Technology (IT) techniques to bring innovative solutions to video security and surveillance.”

Virtual Surveillance is an international provider of state-of-the-art intelligent video surveillance systems. Virtual Surveillance is a market leader in digital video surveillance systems used for surveillance and protection of multi-site operations. As a direct importer of digital surveillance and security products, Virtual Surveillance provides extremely competitive pricing while maintaining rigorous product quality and reliability standards.
